RESEARCH WORK

Research Name:

Prediction of Parkinson Diseases Using Ensemble Learning

Description:

In this research paper, I used ensemble learning technique that significantly enhance the efficiency and accuracy in prediction of Parkinson Disease, surpassing existing methods by accuracy percentage. Our comprehensive empirical evaluations on dataset demonstrated our algorithms superiority over other techniques.

Published in:

The Abstract of my paper have already published in **International Conference on ICT for Digital, Smart, and Sustainable Development 2024 (ICISSD '24)**.

And I have sent an extended version of this paper to **SCI Journal** which is under review.

Place: Hyderabad.....
