A Summary Report
on
Value Added Course on “Software Project Management”

1. **Title of the Activity:** 10 day (30 hours) course on “Software Project Management”
2. **Program Type:** Value Added Course.
3. If others, mention type of activity: -
4. **Dates:** 22/6/2020 to 02/07/2020.
5. **Number of Students Participated:** 60

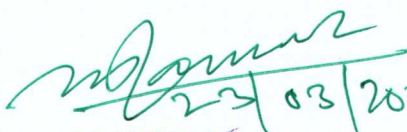

6. **Objective:** To provide students with an exposure of Software Project Management tools and techniques through an essential skill development program. The objectives included learning the conventional and evolution of software, resolving the process of managing software, architecture analysis of a model and the process flow and to review the economics for the next generation software.

7. **Faculty Coordinators/Resource Persons:** Mohd. Afroze, Assistant Professor, IT Department.

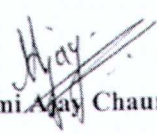

8. Student Coordinator: Ms. Kiran Lakhani (8639534455)

9. **Consolidated Report:**

- The topics of the skill development program were delivered by Mr. Mohd. Afroze, Assistant Professor, IT Department. The outcomes included developing the model from the conventional software product to the modern, analyzing and designing the software architecture, use of various estimation levels of cost and effort included in software development.

A Summary Report
Value Added Course on "Bioinformatics Basic"

1. Title of the Activity: 1 month (30 hours) Course on "Bioinformatics Basics"
2. Program Type: Value Added Course.
3. If others, mention type of activity: -
4. Dates: 09/08/2020 to 09/09/2020.
5. Number of Students Participated: 53

6. Objective:

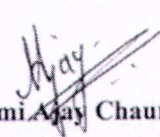

Bioinformatics is an interdisciplinary field that develops methods and software tools for understanding biological data. As an interdisciplinary field of science, bioinformatics combines computer science, statistics, mathematics, and engineering to analyze and interpret biological data. To provide students an exposure to the basics of Bioinformatics through an essential skills development program. The objectives included learning: Introduction to Bioinformatics and overview of Biological Research, Biological databases and database searching, Data Mining and Sequence Retrieval, Motif & Domain assignment, Proteomics, Protein threading and interaction, Pairwise and Multiple Sequence Alignment, Sequence Analysis (BLAST, FASTA, CLUSTAL W), Phylogenetic analysis, Ab initio structure prediction, Visualization tools and other relevant Confirmatory Tools.

7. Faculty Coordinators/Resource Persons: G Jyothsna, BioAxis DNA.

8. Student Coordinator : Ms. Kiran Lakhani (8639534455)

9. Consolidated Report:

The topics of the skill development program were delivered by G Jyothsna, research analyst at Bio-Axis DNA research center. The modules have been compiled to introduce the students to various aspects of bioinformatics, its need and benefits in biological research. The outcomes included understanding: Introduction to Bioinformatics and overview of Biological Research, Biological databases and database searching, Data Mining and Sequence Retrieval, Motif & Domain assignment and Proteomics.
